

ATTACHMENT C

REMARKS

By this amendment, Applicants have amended the claims in a manner which now overcomes the outstanding objections and places this application in condition for allowance. In particular, the claims of the application have been amended in accordance with the Examiner's suggestions so that the language of the claims is consistent and overcomes the outstanding rejections under 35 U.S.C. § 112. An amended Abstract which overcomes the claim objections is included as well. Since the Examiner previously indicated that the claims would be allowable should they be amended to overcome the § 112 rejections, Applicants submit that these amendments place this case in condition for allowance. The Examiner's previous indication of allowability of the claims is acknowledged with appreciation.

In light of the amendments submitted herein, Applicants submit that the present application overcomes all prior rejections and has been placed in condition for allowance. Such action is earnestly solicited.
